Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

A bunch of standards in the genre. You get the charts and the CD to play along with. Sound good right? Well play the songs and they sound stiff - esp for blues shuffle. Play it a few times and you start to go insane. The songs were rather lifeless. I found it useful for two tunes I wanted to tighten up but otherwise there are better "Play Along" volumes or go back and just play along with Jimmy

Reed himself.This feel like you're messing with the computer software "Band In A Box" except not as good. (That product is available from . Check it out.)

Will work for recreational playing.
