Colorado's Continental Divide Trail: The Official Guide

Synopsis

Paralleling the Continental Divide as it zigzags through the Rockies, the Continental Divide National Scenic Trail passes through some of the most spectacular scenery in the United States. This comprehensive guide provides essential information for hiking the 740-mile Colorado portion of the Continental Divide Trail, whether you're planning a weekend trip or an extended through-hike. The text gives detailed descriptions of 42 trail segments, including access points, campsites, mileage charts, elevations, mountain bike accessibility, and detailed maps. Color photography by John Fielder allows you to preview the trail, and makes this guide required reading for anyone planning to hike the Continental Divide Trail. --This text refers to an alternate Paperback edition.

Book Information

Series: Continental Divide Trail

Paperback: 336 pages

Publisher: Westcliffe Publishers (1997)

ISBN-13: 978-1565792265

Product Dimensions: 8.6 x 5.6 x 0.7 inches

Shipping Weight: 1.3 pounds

Average Customer Review: 4.2 out of 5 stars 8 customer reviews

Best Sellers Rank: #1,107,536 in Books (See Top 100 in Books) #35 in [Books > Travel > United States > Colorado > General](#) #1589 in [Books > Travel > United States > West > Mountain](#) #2039 in [Books > Travel > Specialty Travel > Tourist Destinations & Museums](#)

Customer Reviews

Great resource! Lots of detailed information!

Buyer beware, wavebooks who is selling this for \$212.95? is off line and [...] does not respond. Look elsewhere for this book. And \$212.95 has got to be a typo! No way is this worth that! I have a copy and paid under \$25 for it. E-file of GPS waypoints available thru the Continental Divide Trail web site is a lot cheaper! \$16.

Very thorough descriptions of the CDT segments, very helpful to planning and trip

I just moved to Colorado and wanted to consider hiking some of the local trails. I bought this book used for about 10% of the price of the new books. I have trails planned out to hike, using it now.

I liked the section breakout and the elevation changes that were shown in each segment. There are comments in the text to certain features that are not shown on the map, which makes you turn to other resources to locate them. Overall: Worth the money, but room for improvement.

the CD in weiminuche has changed and those changes are not in your book. further more this book says nothing regarding recommended camping spots and when to top off your water bottle.

I had been thinking for some time to do a backpacking trip on the Continental Divide Trail. I knew that I would need some assistance. I purchased this book in the fall of 1999. I spent the next six months planning my adventure. Since I had only 7 days to spend on the trail, I decided to hike Segments 24, 25 and 26 (from Winfield to Hancock). I planned my trip exactly from this book. When I got on the trail July 1, 2000, it was if I had my own personal trail guide with me. I knew exactly what to expect, how far I would hike each day, where the water and the good camp sites were. The driving directions were very accurate to the trailhead, the mileage and guidemarkers were also accurate. Each night I camped at the locations I expected and found water where the author said it would be. I finished my 7 day hike within 2 hours of my expected time! Never had I been on the CDT before! If you have any interest in the CDT I would urge you to purchase this book. I'm now planning my adventure for next year from this book.

Last summer I hiked the CDT, through the wemmenuche wilderness in southern Colorado. This book was used every day to help us out of our 12 day expedition. The details of the trails described in the book are written so well that I often reread parts of it to put a picture in my mind of the awesome land. Tom Jones does an outstanding job. I will keep this book forever, use it on the trail again, and someday pass it to my children.
