Customer Reviews

Super-friendly! Very handy for traveling! A nice tool for starters like me now I am looking forward for learning more!

This book is not really a guide on how to learn Romanian language, more like a traveler's phrasebook. Nonetheless, here you will find the most common Romanian words and phrases that will help you on your journey. Everything is simple and clear, with simple to follow instructions on how to speak Romanian language.

This is a very helpful guide to learn Romanian language. This book has been so easy to read, easy to follow, and has taught me so much. All the vowels, symbols, and sounds are taught in this book. Overall this is a good start to learning the Romanian language.

I'm planning a trip to Romania in a couple of weeks and a friend of mine recommended this book and I find it really helpful because it has common useful expressions for greetings, numbers, days of the week and basic conversation; all you have to do to have a great trip and try to speak in the local language!

I give it only 3 stars because I am appalled I paid almost 20 dollars for this 51 page booklet. I can see that it would be a great little book for someone traveling to Romania that needs the pronunciation guide and basic conversation like Where is bathroom? How do I get to...? etc. But all those can most likely be found online. I was so excited to get this for my sons going to Romania for 2 weeks but expected more for 20 !

You will not "learn Romanian" from this book. Fifty-one pages of large font; it has room only for a pronunciation guide and some phrases.
