# An Introduction To Generators For Hydroelectric Power Plants

J. Paul Guyer, P.E., R.A.  
Editor

Paul Guyer is a registered civil engineer, mechanical engineer, fire protection engineer and architect with 35 years of experience designing buildings and related infrastructure. For an additional 9 years he was a principal staff advisor to the California Legislature on capital outlay and infrastructure issues. He is a graduate of Stanford University and has held numerous national, state and local offices with the American Society of Civil Engineers, Architectural Engineering Institute and National Society of Professional Engineers. He is a Fellow of ASCE and AEI.

## Synopsis

This publication provides introductory technical guidance for electrical engineers and other professional engineers and construction managers interested in the design and construction of electrical generators for hydroelectric power plants.
