Everybody's Ukulele Method 1

Synopsis

Everybody's Ukulele Method is a step-by-step approach that makes learning to play the ukulele not only easy, but fun! The careful pacing of the material reflects the vast teaching experience of the authors. This comprehensive book includes a wide variety of such musical styles as rock, blues, folk, jazz, classical, and world music. Play-along accompaniments complement this innovative method - available for free download.

Customer Reviews

When I started, I tried some of the other more famous books without a lot of success. Before I gave up, I searched youtube for some tutorials. That's when I found Mike Lynch's Youtube Channel and took 'lessons'. He is a great teacher. After he mentioned his new book, I bought it immediately. Because he is such a wonderful teacher, I wanted to support his efforts. Chords are fun and a great way to start. Nevertheless, the ukulele can be a real instrument that allows a more serious study of music. Everybody's Ukulele Method teaches chords and is a great place to start learning to read music with this super fun instrument.

Listen you didn't stumble on this book you saw Ukulele Mike on You Tube, would have you expected anything else. You watched all of his free amazing videos, now put it in the cart and say thank you and once again you won't be disappointed.

I love it - I found out about the author through a you tube tutorial. The book is easy to use and makes me want to get the next one. I played Happy Birthday to my son using this resource over the

phone (okay - my playing needs a lot practice), My son liked it! Thank you xox Sarah

Fantastic Book and if you watch Ukulele Mike and follow some of his tutorials with this book handy, you will learn the Ukulele in no time!! Well worth the money and I am very pleased I got it. Highly recommend it. Added bonus having the C.D. as you can play along.

Great uke book

Great book, moves the user step by step through finger picking, chords and several strumming patterns. Love the computer download that comes with the book which allows user to play along with author, which improves timing and technique. I am self taught and find this book very helpful.

anything Ukulele Mike does is awesome. He takes the time to explain things especially on his youtube channel. This book is a great companion for those.

Great book well written and easy to see and read. The cd is very helpful.
