## **Synopsis**

What if everything you have been told about building a dental practice was wrong? Wendy Briggs and Dr. John Meis challenge dentists with this daily. Two top producers in their own practices reveal their 5-step system that any doctor can follow to double their production. They are showing you how you can create the income needed to grow your practice from what you already have! This means there is no output of money, until you have made the revenue and determined to re-invest that into your practice. That is the beauty of the system that they have laid out.
