Average Customer Review: 4.2 out of 5 stars 4 customer reviews

Best Sellers Rank: #765,464 in Books (See Top 100 in Books) #197 inÂ Books > Arts &

Photography > Graphic Design > Clip Art #1840 inÂ Books > Arts & Photography > Decorative Arts & Design > Decorative Arts

## Customer Reviews

It's an okay book. The description doesn't explain that these 380 designs were originally published as part of The Big Book of Graphic Designs and Devices by Typony Inc. That book contained 1200 illustrations but no CD. (I already had that book, and had I known these designs were all included in that book, probably wouldn't have purchased it.)

Great for graphic designers! Love it.

I love Dover products and their cd's work beautifully without hassles. I love all the collections but this one is esp. good. Dover books are at the top of my list of favorite things. Ive loved them always and can't get enough.

This collection would make a useful companion to Dover'sÂ Geometric Motifs CD-ROM and Book (Dover Electronic Clip Art), though it has less designs in it than the former. The ones it has range from frames and cartouches to variations on snowflakes, butterflies, and Greek crosses. There are

ovals and circles and squares, hexagons and extended double-ended figures, all duplicated on the CD-ROM. Crafters are sure to find motifs they can use, and people just interested in the variations possible on a single design will be intrigued.
