I am a real estate agent, and this book was amazing! It not only gives facts and statistics to back up

staging techniques, but it has tons of before and after illustrations too! I have since purchased this book for several family/friends who are planning to sell in the next few years, and I wrote a blog based on the staging tips and techniques I learned from this book.

Great Book. Awesome ideas.

Great buy, loved it.

Worked great sold house in 7 days. Saw faults in sellers as we looked for a new home.

It seems like I highlighted half the book, and I have pages of notes. This is a clear, easy to read guide with lots of great tips and examples.

Great book full of real practical info and easy to read. Great intro to the subject.

This is a good book for beginners who are looking for tips on how to "stage" or prep their home for viewing. This is meant to give you ideas & for you to run with it. I loved it! It helped give me the jump start I needed.
