My son is taking an online geography course and this was the book for the curriculum. I have been pleasantly surprise with this book. The language is easy to read and the pages have lots of colorful pictures. I like how each chapter is divided into physical and cultural sections. There is also a national geographic 2-page "did you know" section at the end of each chapter. The review and assessments at the end of the chapter are very comprehensive.

Same as school book. In very good shape

Great book

It is exactly as we require for the homeschooling class! My daughter has gotten the best use from this book.

Purchase was required for online course. Very glad the textbook was so inexpensive to purchase, since rental was not an option.

clean, fast shipping

The real deal.
