Stephanie Carter (Lily Ashbury) has been in the art and design business for many years and has worked in many markets along the way. Stephanie started her career as an editorial illustrator for one of the local newspapers in her hometown of Vancouver BC, Canada and has never looked back. From extensive projects for the advertising and publishing industries, to children's book illustration, art for packaging and Canadian stamp design her illustration career has been quite rewarding.

Most adult coloring books don't appeal to me because of all the fine tiny details but kids coloring books get boring after a while. This is a really happy medium. There are some images with lots of detail and some images that are simpler. The images are mostly flowers or floral abstract which are

my favorite. The images are one sided and the paper while not the thickest in the world does not bleed through when using gel pens. The paper is smooth and bright white. One thing that might peeve some people is that the image goes over the perforation into the binding so it's harder to colour and if you really plan to tear apart your book you will leave a bit of the image behind, since I have no desire to tear up my book this doesn't bother me in the least.

Good size, nice layout

Very nice art.

This is one of my preferred books. I like the spiral binding, and also nice pictures - good level of detail, variety of detail levels. I don't like a whole book of tiny spaces to color.

I really like these color and frame spiral bound coloring books. I have 3 of the single books and several of the 3 in 1. The paper is high quality printed on one side, and pages are perforated. This one is full of floral patterns. The spiral binding makes it much easier to access the full page to color. So far I've used pens and colored pencils, and the paper holds up well with no bleed through.

One of my favorites and I have many. I like the notebook type style. Pages are easy to tear out. Good paper. I'll be sad to finish it but I enjoy it a lot.

Love that it's a spiral. Paper would be better if it was a little thicker. Like about half of the picture, those with smaller spaces.

Love the way it's made, good quality paper, wonderful pictures. Wish there was more like it.
