A sweet and steamy short story. Sam met Nessa at the bakery near his office. At first he didn't see anything but a girl in loose frumpy clothes. Then he saw her eye. Knocked up in two weeks and married for six months. Sam is managing his horny, hormonal, and insecure wife, while they are still getting to know one another. Loved Sam and Nessa.

Lots sex, we are told things instead reading it in scenes, no epilogue and the very short book was like couple days in life of a new couple that married after getting pregnant by accident after two weeks knowing each other. Seriously I enjoy good sex scene but this appeared to be all it really

offered. Expect more for \$2.99

I love Jordan's books. This one though was a hit and a miss. There was little character build up. Sam liked Nessa but really only agreed to accept it after he got her to change how she dressed. We heard all about Mackenzie but never got to see her come to life. So much more could have been added her mother, his, mother, his sister, Cecile interacting with Nessa but nothing. Really wished I wouldn't have spent 2.99 for this book.

I loved this book, however I do wish the book was longer. There was not a lot of background information, and Jordan is usually very good about providing that. It's a good story line, I just would have liked more background information and a longer story line (particularly) for the price.

You can't go wrong with a Jordan Silver book. The only complaint I have is that it was a little too short and it not enough character development. Besides that I love the overall story and can't wait for the next book.

This story is very short but if want a quick feel good read where you can root for the underdog who gets the hot male alpha then this is your story.

Jordan silver rocks absolutely love everything she writes this is a fast read but worth it so sweet and sexy yum

As always as soon as I started it I was quickly hooked couldn't put it down till I reached the very end. Short but definitely another great by the awesome Jordan!
