# **Africa South Of The Sahara, Third Edition: A Geographical Interpretation (Texts In Regional Geography)**

## **Synopsis**

This authoritative, widely adopted text provides a broad introduction to the geography of Africa south of the Sahara. The book analyzes the political, economic, social, and environmental processes that shape resource use and development in this large, diverse region. Students gain a context for understanding current development debates and addressing questions about the nature and sustainability of contemporary changes. Timely topics include the rise of foreign investment in Africa, the evolving geographies of rural-urban linkages, the birth of the Republic of South Sudan, and advances in the struggle against HIV/AIDS. **New to This Edition:** \*Fully updated to reflect the latest data and trends in development. \*Chapters on development theory, cultural and societal diversity, the political geography of postindependence Africa, economic integration, and the geography of poverty. \*Substantially revised coverage of gender dynamics, urban living environments, mineral and energy resources, and many other topics. **Pedagogical Features** \*Vignettes in every chapter that provide detailed case studies from a variety of countries and elaborate on key concepts. \*Recommendations for further reading on each topic, including print and online sources. \*Companion website with downloadable PowerPoint slides of all original figures, photos, and tables. \*An extensive glossary.

## **Book Information**

Product Dimensions: 1.2 x 7 x 9.8 inches

Shipping Weight: 2.2 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 1 customer review

Best Sellers Rank: #84,342 in Books (See Top 100 in Books) #18 in Books > History > Africa > South Africa #44 in Books > Travel > Africa > General #51 in Books > Textbooks > Humanities > History > Africa

## **Customer Reviews**

"Stock invites the reader to relearn the map of Africa and to locate and understand processes and events that continue to influence Africa's development paths with quite different and often

unpredictable outcomes. He uses vignettes to simultaneously enliven the text and create a productive platform on which to engage with recent developments in the continent. In its third edition, this book remains one of the key texts on the geographical study of Africa."--Maano Ramutsindela, PhD, Department of Environmental and Geographical Science, University of Cape Town"This significantly revised edition of Africa South of the Sahara offers a critical interpretation of received ideas. Stock situates contemporary human development concerns about sub-Saharan Africa in their historical, cultural, and regional perspectives. A new chapter on the history of development thinking guides the book's synthetic discussions of rural and urban economies and livelihoods, population and resources, and health. The prose is lucid and the arguments compelling. A highly accessible introductory text for courses on regional geography, development studies, and global studies."--Thomas J. Bassett, PhD, Department of Geography and GIS, University of Illinois at Urbana-Champaign"I can't wait to use this text in my Geography of African Development course. The third edition is very up to date; it hits on many of the important issues associated with current developments in Africa. While there is continuity with prior editions, there is also substantial new material that is exciting to read. Highlights include expanded coverage of cultural factors; in particular, discussions of African contributions in the arts will engage students and draw them in to the study of the continent. Other new content addresses migration, Africa's growing role in the world economy, poverty as a human rights issue, energy resources, and much more."--Marilyn Silberfein, PhD, Department of Geography and Urban Studies, Temple University"Every unit of the book raises thought-provoking questions and leaves one wanting to learn more....This text is to be highly recommended to lecturers looking for useful illustrations and neat summaries and to undergraduate students taking a broad range of African, development, and general geography courses." (Journal of African Earth Sciences 2012-12-21)"In Stock's book...[instructors] will find excellence....Africa South of the Sahara is a textbook reflecting the author's deep understanding of both the continent and its research literature. As such, it teaches the teachers as well as the students." (The Professional Geographer 2012-12-21)

Robert Stock, PhD, is Associate Professor in the Department of Geography at the University of Winnipeg, Manitoba. He previously held positions at the University of Saskatchewan and at Queen's University, Ontario.

Book is heavy. Holds lots of information. Had to buy it for a Geography course but it was worth it. You can definitely use it outside of class. Book was a good price and shipped fast.
