Wild At Heart: Discovering The Secret Of A Man's Soul

Synopsis

Every man was once a boy. And every little has dreams, big dreams, dreams of being the hero, of beating the bad guys, of doing daring feats and rescuing the damsel in distress. Every little girl has dreams, too: of being rescued by her prince and swept up into a great adventure, knowing that she is the beauty. But what happens to those dreams when we grow up? Walk into most churches, have a look around, and ask yourself: What is a Christian man? Without listening to what is said, look at what you find there. Most Christian men are . . . bored. John Eldredge revises and updates his best-selling, renowned Christian classic, *Wild at Heart*, and in it invites men to recover their masculine heart, defined in the image of a passionate God. And he invites women to discover the secret of a man's soul and to delight in the strength and wildness men were created to offer. John Eldredge is the director of *Ransomed Heart* --This text refers to an out of print or unavailable edition of this title.

A book and a message that changed my life years ago. It's been sad to read "christians" tear down this message, trying to hyper-critique the ways John shares stories from the Bible or how he speaks to men. Men all over the world found freedom to be themselves in their experience and relationship with God, to begin to actually walk with God, hear His voice and know His heart. I know men all over the U.S. who began to rise up to love their wives, find their calling, engage the lives of their kids, and begin to love the life God has given them and live it well! And thousands of families have also experienced so much good because of this. If you're the type that feels it's your god-given duty to

scour the texts of books to find all "the errors" and expose "heresy", I'm sure you can (or already have) gleefully torn away at John's message. But, honestly, I ask, "Really? Why not just become an IRS agent instead?" And, I say, "Get a life." Sincerely, I say, go get a life that worth's living! Stop hiding behind your computer or your pulpit or your religious duties or your secret addictions and find the wide open spaces of life! The message of WAH, both in the book and in the retreats Ransomed Heart put on based on this message was an invitation for me to experience God in ways I never thought possible and to experience life in its fullness in ways I never thought possible. And not only was it an invitation, it was permission to finally live my life. Maybe that doesn't make sense to many, but it was a game-changer for me. After returning from a WAH retreat, my wife literally said to me, "What happened? You even look different." My life will never be the same. Nor will the life of my wife and my children.

This is an amazing read, not only from men but for women as well. However, it is directed at men, and can really help you understand, what our Creator instilled in our hearts, our souls, at our birth. It is extremely freeing, extremely renewing to my soul to realize that the deepest desires of my heart are actually not evil. They are an expression of my Creator. In the deepest desires of my heart are in fact good. I have been raised within the confines of contemporary religion. I have been freed by the Truth in this book.

I've read and reread Wild at Heart over the past 12 yrs. Core truth never goes out of style. But we need to be reminded periodically, lest we forget. A must read for men seeking authentic masculinity AND spirituality-which are neither diametrically opposed, nor mutually exclusive.

(this is a review + commentary)I've been reading John Eldredge's book, which is actually a book for men -- and maybe for the women that love them -- yet I am reading it as a mom, for the little man-in-training that I have running about. I am finding it really really helpful and interesting.Eldridge's basic assertion is that every man needs a dragon to slay, an adventure to live, and a beauty to win. And that the dragon to slay, the adventure to live, and the beauty to win are all spiritual. It offers some very intriguing discussions on this as well as more down-to earth concerns that speak to me, a mother of a son. Here are some passages that captured my attention."Capes and swords, camouflage, bandannas and six-shooters -- these are the uniforms of boyhood. Little boys yearn to know they are powerful, they are dangerous, they are someone to be reckoned with. [. . .] Despite what many modern educators would say, this is not a psychological disturbance

brought on by violent television or chemical imbalance. Aggression is part of the masculine, we are hardwired for it. [. . .] Life needs a man to be fierce -- and fiercely devoted. The wounds he will take throughout his life will cause him to lose heart if all he has been trained to be is soft."Eldridge also speaks to the current trend to ask little boys to become more like little girls. You know, sit still, behave nicely, negotiate pleasantly, etc."We make men without chests and expect of them virtue and enterprise. We laugh at honor and are shocked to find traitors in our midst. We castrate and then bid the geldings to be fruitful.~ C.S. Lewis

"In my view, virtue and enterprise arise from courage, competitiveness, and opportunities to mess up and learn therein. Honor comes from temptations resisted, not from temptations un-faced. This put me in mind of another Lewis passage: "A silly idea is current that good people do not know what temptation means. This is an obvious lie. Only those who try to resist temptation know how strong it is . . . A man who gives in to temptation after five minutes simply does not know what it would have been like an hour later. That is why bad people, in one sense, know very little about badness. They have lived a sheltered life by always giving in." The strong one is the one that regularly encounters and shuns temptations. This also applies, I think, to the wise man. I'm hoping that, as I let my little man often encounter and often choose foolish actions, he will learn (eventually) to make wise choices. We call the foolish choices Learning Opportunities. My sister's hubby calls them Self-Correcting Behaviors. The book also included this passage from Chesterton -- in a completely different chapter and not related to the above-mentioned discussion -- that I really liked and I'm including it in this post because I found it so thought-provoking.

"Courage is almost a contradiction in terms. It means a strong desire to live taking the form of a readiness to die. 'He that will lose his life, the same shall save it,' is not a piece of mysticism for saints and heroes. It is a piece of everyday advice for sailors or mountaineers. It might be printed in an Alpine guide or a drill book. This paradox is the whole principle of courage; even quite earthly or quite brutal courage. A man cut off by the sea may save his life if he will risk it on the precipice. He can only get away from death by continually stepping within an inch of it. A soldier surrounded by enemies, if he is to cut his way out, needs to combine a strong desire for living with a strange carelessness about dying. He must not merely cling to life, for then he will be a coward, and will not escape. He must not merely wait for death, for then he will be a suicide, and will not escape. He must seek life in a spirit of furious indifference to it; he must desire life like water and yet drink death like wine. ~ G.K. Chesterton

"I recommend this book to any man who is a father or who has a father. It has some keen observations and some wisdom, particularly if there are some wounds around those relationships.
