Maidens, Myths And Mermaids - 40 Stained Glass Patterns

Synopsis

Maidens, Myths & Mermaids from Wardell Publications stained glass introduces 40 designs for stained glass windows with scenes from mythology and history that are realistically translated into art glass designs. For centuries people have used mythology to describe and explain many great events of human experience. The 40 spellbinding stained glass panels in this collection illustrate the legends of love, adventure, exploration, and conquest. They examine the folklore of the Mermaid, of chivalrous Knights, dancing Maidens, Kings on horseback, consorts, musicians, lovers and so much more. Descriptive text accompanies each design providing a fascinating insight into the artists challenge and offers solutions with hints and tips for glass selection and project strategy. Every project includes the pattern line drawing. 24 projects are shown fabricated with a color photograph while the remaining 16 are rendered as a textured line drawing with color suggestions. Plus 2 designs are provided as full size patterns printed on a bonus pullout page in the back of the book. The author presents an overview of how she turns an oil painting into a stained glass design, plus detailed instructions on how to enlarge a pattern drawing.

Customer Reviews

Didn't have as many mermaid drawings as I would have liked and you can see all of what is in it before you purchase.

I purchased this book as a gift for a friend who does intarsia wood pictures. The artwork is beautiful

and the patterns are easy to follow and very clear. Two full size patterns are included also. The descriptions with each picture add to the understanding of the artwork. In one picture, they described how they learned what water turbulence looked like through their scuba diving experiences. I would recommend this book to anyone seeking mermaid and fantasy pictures and patterns.

I was excited to find this book and got a decent price on it at . I wanted patterns with Mermaids in it to do some glass panels for my home. I was a little dis-appointed that it did not have more Mermaids and less Maidens and Myths. If I had been able to see the book before I purchased it, I might have still bought it, but then again might not. It will be worth the price if I do just one panel out of it.

Just as described, perfect addition to my collection.

What you see is what you get.

This book had some great patterns in it! It also explain how to blow up the patterns that are smaller. A great book for patterns in Tiffany style stained glass.
