Angola (Bradt Travel Guides)

Synopsis

Angola is changing at a rapid pace. This new edition reflects the continued resurgence of tourism following years of conflict. While no city comes close to matching Luanda for sheer size, venture outside the capital and you will find everything from frontier diamond towns to relaxed beach resorts. The country offers over 1,000km of unspoilt beaches, excellent fishing and some of the best surfing waves in the world. Rain forests and bird spotting opportunities abound. Whether business traveller or pioneering adventurer, Angola provides all the practical and background information you'll need to tackle this vast country. It also acts as a guide for expats living in the country.

Customer Reviews

I used this travel guide during my three week volunteer assignment in Huambo in central Angola early this year. There are not a lot of stunning attractions in Angola. It's a country that is just ten years away from thirty years of civil war. There are still some bombed out, shot up, and burned out buildings scattered around Huambo where I was located. Huambo was the center for one of the militias. One of the staff I worked with lost his father in fighting at the airport during the conflicts. His family members were refugees in Zambia for some of the conflict years. That's where he went to

school. Everyone's lives were touched by the conflict. But now they've moved on. Angolan towns feel like you're in Brazil. The villages are definitely African. But the major towns are youthful, clean, and people are happy to have you there. There are parks and town squares surrounded by leafy suburbs. Shoprite is a major supermarket chain where you can get all your food and supplies. They have a great bakery in Huambo. There are some good restaurants. The best food was at a home where expats from Spain and Cuba were gathered. The Brazilian influence is strong in food, music, and clothing styles. Luanda, the capital, is the most expensive major city in the world. So be prepared. Hotel rates are exorbitant and restaurants are as expensive as in the Eurozone. You'll need this travel guide to help find some reasonable values. I understand from the book and the locals there are some nice beachside towns south of Luanda along the coast. There is beautiful country scenery in central Angola. But many of the trees were cut down for firewood during the conflicts. Agriculture has been increasing in the rural areas. Almost everywhere the mines have been cleared. But the wild animals were are killed for food or target practice. I saw a few birds. So go elsewhere for your safari experience. We've been to the Serengeti in Tanzania twice. It's the premier safari experience with all the animals. Visit Angola to practice your Portuguese and meet some friendly people. And you'll experience another flavor of Africa with a bit of Brazilian salsa. Tourism will come as the country rebuilds. But it's not there yet.

Great book

I went to Angola twice and the book helped me a lot with what I was looking for. Well-written and full of information, perhaps suffering from more research in the far-flung outposts of the country (if you care to get there in the first place).
