very well made

Have read it like a million times for my 2,5 year old, and he does not want to read anything else anymore.

Daughter loves this book.

Excellent! The coolest kids book ever!

Amazing product

I'm an avid car enthusiast with two kids. I found a lot of children's books subject matter to be disconnect from my families interests. This was the perfect book for my kids and myself. The kids loved all the illustrations, and I loved providing all the sound effects. If you like cars and have children. This is a must have bed time story.
