Love it!

Yet another wonderful coloring book from Steve McDonald - this time focusing on the natural world for its subject matter. Schools of fish and jellyfish, herds of elephants, tangles of tree roots, a field of tomatoes, a field of tulips, a natural rock arch at the seaside, a beach with palm trees ... almost 60

pages of drawings in the same larger (11 3/4 x 11 1/2 inch) format as his other books, and including his trademark "mandala" drawings. Pages are double-sided, so you'll need to watch for bleed-through, and not perforated. The drawings are at a balancing point where you can add more and more detail or make them very abstract - it's your choice! Want more of Steve McDonald's awesome books? Try these earlier ones: *Fantastic Cities: A Coloring Book of Amazing Places Real and Imagined* *Fantastic Structures: A Coloring Book of Amazing Buildings Real and Imagined* *Fantastic Collections: A Coloring Book of Amazing Things Real and Imagined* (*Fantastic Cities*) There are also posters and postcards for *Fantastic Cities*: *Fantastic Cities: Coloring Poster Set* *Fantastic Cities: 20 Postcards to Color* as well as wall calendars to color for 2017 and 2018.

**FANTASTIC PLANET** is not about Aliens or Outer Space. It's about Earth, and all the fun animals and plants and landscape on our planet. All the way from snakes or wolves to beautiful mountain peaks. The inside front, and inside back cover illustrate what the panels CAN look like---if you do a good job! I found the paper to be solid, and well-suited for drawing or inking. Advance Review Copy courtesy of Chronicle Books
