Understanding And Managing Diversity: Readings, Cases, And Exercises (6th Edition)

Synopsis

For undergraduate and graduate courses in human resources. A diverse approach to understanding and managing diversity. Understanding and Managing Diversity uses applications to clarify the complexity of a diverse workforce, and explains how it can be used as an organizational asset. This text also provides students with a wide range of expertise—from the perspective of experienced interdisciplinary instructors (business, psychology, economics, theology, law, politics, history, etc.) to practitioners (diversity trainers, corporate managers, etc.). Teaching and Learning Experience This program will provide a better teaching and learning experience for you and your students. Here's how: Provide Students with an Accessible Format: Information is presented in a logical succession to help students learn that is in a way accessible to them. Present New and Timely Diversity Topics: Topics include Racial Identity, Work-Life Balance, Diversity Leadership, and Workplace Communication. Stimulate Critical Thinking about Managing Diversity : A Best Practices feature provides examples of successful innovations.

Customer Reviews

This was a required book for a Diversity management class. I found it very useful in the class, and it was great to know my professor had personally spoken with the author. The case studies were perfect for in class discussion on diversity in the work place. The only negative thing I can say about it, there is some factual errors in the book, for example, Marissa Mayer is the CEO of Yahoo, and

not Google.

It hurt my brain to read this, but it was required reading for a degree-required class. As far as the book goes, it was easy to read on an iPad, though I had to do a little zooming in some areas.

This textbook is really well done. It's not like your normal textbook though! It's a collection of articles and some case scenarios followed by discussion questions. The text is easy to read and really thought provoking.

I think no stars.. I rented this book & it's missing pages 207-238 & the contents page #s do not line up & one page is printed with a number & on the back is a non sequence number. Very upsetting

Great information!

It's in good condition as described

I had to get this for a class and it turned out to be a pretty good book. It is rather dry like most required readings.

Book was in good order when received. Interesting topic
