This book is just jambo mambo pray to jesus christ to get well bulls***. I am amazed. Oh it did have some definitions from wikipedia or something.

As I was reading this book I was thinking about the emotional pain that people experience with any kind of skin disorder due to embarrassment and shame, compounded with the physical discomfort. I was drawn in by the words of the title "Freedom from". In my life experience I have witnessed much human suffering and in my compassion I long for people to be free from their suffering. This disease as well as other diseases I have explored are directly correlated to a compromised immune system. What I loved about this book is how the author identifies the roots associated with this disease that led to a compromised immune system. Then he follows up with the process an individual needs to go through to bring their immune system back into balance. In addition, he identifies triggers for flare ups of the disorder. I feel this is important so people can work to avoid the triggers. A balanced immune system allows people to live free from sickness and disease. I am grateful for the information in this book so I can share it with family and friends to help them alleviate their suffering and become free from the prison of their own body.

There's no cure for Psoriasis but through Christ And the renewing of your heart and mind, freedom IS undoubtedly yours.
