My husband loves puns. I bought this for him at Christmas last year and he still loves it. I tease him and say it is "old man humor" but mostly it is good clean fun. If you love puns, you will love this book.

This is the greatest book of puns ever amassed!! Chuckles abound, one can read it again and again! A perfect gift for the holidays! Benjamin Branfman is quick, clever, and delivers tons of laughs, he's truly one to watch!

The bones of the jokes are decent (though not very original overall), but the way they're written is formulaic and often long-winded. Nearly every joke uses "One time," as the setup and "In other words, you could say..." or "So, I guess you could say..." just before the punchline. Some diversity in the way the jokes are written would have gone a long way toward make this a book you can actually read cover to cover without being bored or frustrated. The book would be great with some editing and tightening up, but as it reads now it's firmly "okay."

Bought this book as a birthday gift for my boss. She's loving every second of it! The only down side is that now I have to hear the same puns (which are her favorite from the book) every day at work.

XD

Great puns! Some are a bit long-winded...but I guess that's mandatory when compiling such an extensive collection of them!

This book was a big hit with my teenage grandson, who's a pun lover.

Full of very clever puns, not just jokes that would entertain kids or people with limited intelligence. This book has become the end-of-day pick-me-up at my office outros for my coworkers. They actually request I read from it before they leave for the day. Definitely recommend.

We are enjoying this book. My husband loves the puns! I groan on cue! But it is all good! Fun!
