What Your Doctor May Not Tell You About Parasites

**WHAT YOUR DOCTOR
MAY NOT TELL YOU
ABOUT PARASITES!**

A simple, yet scientifically supported book, that teaches you:

- Why "stealth" parasites might be causing your bloating, heartburn, "IBS" and other digestive disorders.
- How and why parasites might be the secret reason you feel tired, anxious or grumpy.
- How and why parasites might be disrupting your sleep, interfering with your sex function and causing skin, hair and nail problems.
- How to find out whether you have parasites, and how to successfully eliminate them for good.

David Hompes, M.Sc

Synopsis

Are you having difficulty with unexplained, mysterious symptoms? Do you have chronic digestive problems like heartburn, bad breath, bloating and "IBS"? Are you tired and having a hard time sleeping for no apparent reason? Do you have aches and pains, or problems with your skin, hair and nails? Are you struggling in any area of your sex life and are you finding it hard to shake off infections? If so, the cause may be parasites in your body. Parasites are not confined to the developing world – they are rampant in "western" society.

Contaminated food and water supplies, lack of hygiene, global travel, our love of pets and medical ignorance has caused an explosion of parasite-related health challenges. Despite voluminous research pointing to parasites as a major cause of chronic symptoms, the medical community hasn't yet grasped and acknowledged the connection between parasites, low vitality and illness. In this controversial yet authoritative book, David Hompes draws on his experience of helping more than 2,000 people around the world rejuvenate their health to teach you what parasites are, how you acquire them, why they cause problems and how they get into your body. This indispensable book also helps you find out whether you have parasites and, most importantly, how you can safely and effectively remove them and repair any damage to your body they may have caused, leaving your health truly rejuvenated.

Customer Reviews

I just love reading about parasites. Weird, I know. After feeling lifeless and sickly for many years I decided to investigate every possible reasons. Turns out that 90 % of the population have parasites. I wonder why Doctors never mention this. Do they just prefer to deal with symptoms with unnecessary drugs? This book and a good cleanse is all I needed to get my energy back. This book is very informative and well written. I plan on buying his other books.

Very helpful. Eas you to implement dieting suggestions.
