Customer Reviews

Finally finished my MOTU books and so glad to have this book. This book is something I always wanted from back in the day and finally got it now. These MOTU books are just so awesome that any fan of the cartoon that these books are a MUST have for your collection. All the hard work that these people put in really shows in quality of this book. I really love how each section is broke up and any section is easy to find whether it be a beast or a small piece item of a story in the toon.

I helped write the book, so I'm impartial.

This is a completely thorough accounting of the flora and fauna of the MOTU mythology. Spanning from its inception to this modern age. I am so delighted to both take a trip down filmation memory lane and uncover material from the past I was not exposed to. Just asuch attention was paid to the successive years into the present day. I hope other cartoon properties have these folks create similar tomes for them.

An encyclopedia of everything Masters of the Universe. Well put together without a doubt. It contains info on every incarnation of each listing. Perhaps not as entertaining as I'd hoped it would be. I picked up the mini-comic collection as well. Both books are very sturdy.

This book is chic full of great information about the Masters of the Universe. It has has quite a bit of trivia. It is organized in a very concise and readable format. I nice dive into a childhood favorite and more.

Great book just wish they gave the height and weight for there main star

Awesome book! For any true, hard-core MOTU and POP fan! :D

Possibly the best of the Five books Dark Horse has put out. Cannot wait to dive further into this one.
