Drugs, Society, And Human Behavior

Synopsis

Drugs, Society and Human Behavior provides the latest information on drug use and its effects on society as well as on the individual. Trusted for more than 40 years by both instructors and students, this authoritative resource examines drugs and drug use from a variety of perspectives—behavioral, pharmacological, historical, social, legal, and clinical. The 16th edition includes the very latest information and statistics and many new timely topics and issues have been added that are sure to pique students' interest and stimulate class discussion. Instructors and students can now access their course content through the Connect digital learning platform by purchasing either standalone Connect access or a bundle of print and Connect access. McGraw-Hill Connect[®] is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following:

- SmartBook[®] - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content.
- Access to your instructor's homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course.
- Progress dashboards that quickly show how you are performing on your assignments and tips for improvement.
- The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping.

Complete system requirements to use Connect can be found here:

Customer Reviews

Dr. Carl Hart is an Associate Professor in both the Departments of Psychiatry and Psychology at Columbia University and is also a Research Scientist in the Division of Substance Abuse at the New York State Psychiatric Institute. A major focus of Dr. Hart's research is to understand the complex interactions between neurobiological and environmental factors that mediate and modulate the actions of drugs of abuse, including drug-taking behaviour and cognitive performance. Dr. Hart's research has been supported by the National Institute on Drug Abuse for the past several years. In addition to his substantial research responsibilities, Dr. Hart teaches an undergraduate Drugs and Behaviour course and was recently awarded Columbia University's highest teaching award. Charles Ksir received his bachelor's degree in Psychology from the University of Texas at Austin and his Ph.D. from Indiana University in Bloomington. Following his postdoctoral training in Neurobiology at the Worcester Foundation in Massachusetts, he began a 34-year career in teaching and research at the University of Wyoming, where he also served in a variety of administrative positions. Now a professor emeritus, he focuses his efforts on teaching and textbook writing. He has taught the psychology course Drugs and Behaviour to more than three thousand students since 1972 and has received several teaching awards.

Nice and compact. Had to get this for my addiction class. The chapters are nice and detailed and helped me get my homework and required reading done. Studying this textbook helped me ace my exams. I like that this textbook is smaller and lighter than normal textbooks. I wished all textbooks were this size.

Textbook. My daughter does not have much to say but it did come in great condition.

Good survey of drugs and the current issues surrounding them.

Very heavily worn, and written in. Described as very good.

Not great condition

Didn't receive this until WEEKS LATER. Not very good when it was needed for a class. The book is great though.

As far as textbooks go, this is one of the easiest to read, understand, and actually finish. While informative, it isn't dry and chock-full of flashy words to make the author sound smart and readers feel stupid. It has an easy flow and the chapters are broken down into small sections.

My class begins on July 10, 2017, so I can't really say whether or not it is beneficial. I'm sure it is because I'm under great Professors who require the best material for their students.
