Ukrainian: A Comprehensive Grammar (Routledge Comprehensive Grammars)

Synopsis

Ukrainian: A Comprehensive Grammar is a complete reference guide to modern Ukrainian grammar. The authors have consulted a great number of sources, in addition to a wide range of native speakers. The result is the first true reference grammar of Ukrainian to be published outside Ukraine, it will be the standard reference work for years to come. The volume is organized to enable students of the language to find the information they seek quickly and easily, and to promote a thorough understanding of Ukrainian grammar. It presents the complexities of the language in a systematic and user-friendly form. Features include* detailed tables in each chapter for easy reference* numerous examples throughout* thorough descriptions of all parts of speech* list of grammatical terms in English and Ukrainian* complete descriptions of the word-formational processes of Ukrainian* an overview of past and present changes in the language* bibliography of works relating to Ukrainian* full index.

Customer Reviews

Splendid reference book for the serious learner to hone their skills with. It's not for the beginner, as the book states, it isn't primarily meant to teach Ukrainian, but a resource to accompany the study of this language to a further degree.

Really well done textbook. The fine details of the complex and beautiful Ukrainian language are well presented in this text. I admit to being overwhelmed by this textbook as it requires a pretty fine understanding of English grammar in addition to Ukrainian. However, it is helping me to understand English even better now and it is my native tongue. This book will be very useful when I reach a higher level in my understanding of Ukrainian. I am still a beginner at this point, but I still find this textbook very useful nonetheless. I highly recommend this text and "Colloquial Ukrainian" also by these authors. "Colloquial Ukrainian" is a course with audio of native speakers for absolute beginners. I admit that I use a different course by Roma Franko much more and have also found that one very useful. But there are many more details and subtleties explained in both of the books written by Ian Press and Stefan Pugh. Thanks to both of those gentlemen and their Ukrainian teachers for their fine work!!!

I was quite pleased to get this. The Routledge Grammars tend to be very good and this one was no exception. After a brief but good introduction on the history of the language and its relation to other Slavic languages. There was about 25 pages describing the Ukrainian phonological system, and then the remainder treated each part of speech in detail. I am a linguist-morphologist by profession, and what was in this book was exactly what I needed for work which was doing.. The authors are to be congratulated. It's good book.

There seem to be very few resources available for those who are studying Ukrainian. I found this book to be really good, containing everything I needed.

I can't explain why, but this is just such a nice book. If it had an exercise book along with it, it would have been even greater!
