Customer Reviews

"Not only does Thalia share some great superstar secrets she's learned, she also shares who she is, and how she gets that infectious, positive energy. Belleza! is like Thalia herself inspiring, feminine, and fun." Daisy Fuentes "A woman's exterior beauty is a reflection of her internal peace and happiness. Thalia is a perfect example of that. As a role model for our generation of Latinas she and her new book prove that true beauty is a combination of mind, spirit, and body." Gloria Estefan "I love Thalia's message in this book about the power of happiness, enlightenment, and positive thinking. The best beauty trick you can ever learn is that: 'The inner beauty always shines through.'" Petra Nemcova

This book is full of great and useful tips my admiration for her led me to buy it and also because she's so beautiful I thought she must have some secrets. Awesome book if you're a F.A.N. you'll love it and if you're not it actually has wonderful tips that you wouldn't of thought of before. Besides tips it also has recommendations on looks and other greaty things.

if you love skin care, make up and looking at the beautiful Thalia, then this book is a must. It offers beauty, skin care tips which there's a great chance you already know from years of reading the beauty sections in magazines. But nonetheless, it's nice to have this book to review what you already know and get the chance to use those knowledge again. She also talks about happiness and how to get it etc. Get inspired and pamper yourself.

In my opinion this book is ok for me... I would rate it 3 stars only... It h as some useful tips, and recommendations, but I honestly though that Thalia was going to reveal more of her beauty secrets and products that she uses. She names only a few... I wanted to know the hair product that she uses, but she didn't mentioned any.....Some of the stuff that she says here are very basic, and things that we already know, for example she says celine dion gave her a beauty tip, when you get off from the limousine and youre wearing lipgloss, turn your head agains the wind, so that the hair dosnt get stuck to your lips... Really??? c'mon! she also says that when she goes to the beach she orders a dozen beer.. she puts it in her hair, and she gets natural highlights this way... I don't think a millionare like thalia gets highlights from beers... She dosnt say what moisturizers she uses, or night creams, or anything like that.. However it does has some good tips such as the nose contouring, how to keep the make up bags, and some others... Its a good book overall..but don't expect her to tell you what creams, or hair products she uses...cause she wont tell you..
