# Red Flags: How To Know He's Playing Games With You. How To Spot A Guy Who's Never Going To Commit. How To Force Him To Show His Cards. (The Truth About ... Of Commitment And Sudden Loss Of Interest)

## Red Flags: How to know he's playing Games with you

How to spot a guy  
who's never going  
to commit.

How to force  
him to show  
his cards

The **Truth** about  
his **weird behavior, fear of commitment**  
and sudden **loss of interest**.

## Synopsis

Learn Secrets about Men and The Dishonest Games they Play That Most Women Will Never Know. Most women are very surprised when a man becomes distant, when they find out he wasn't as interested as he seemed, or worse, when everything he said turns out to be a blatant lie. It's time to use the secrets of the men who "play" games with women and find out- What the Red Flags are that will give him away sooner- How to find out if he sees a future with you- Why men play games with you (what are their motives?)- Two reasons why men won't commit- The types of men who play games with you- Strategies to get him- How to force him to show his cards, how to find out the truth sooner than later- When and how to let him go, if needed.- How to test him and see if he's willing to go the extra mile- My quick strategy to make a man commit. There are different types of men who play games with women. Not all of them are the obvious "player", that's the only type of player you can see from a mile away. No no, there are other types of men who use under the radar manipulation techniques to keep women interested, even though they see no future with her. It's hard to date a man or be in a relationship (let alone a marriage) with a man who's not really honest about his real feelings for you. In this book, you'll learn what types of men play games, why they play those games, red flags to watch out for, and how to filter the true bad boys out of your life. You'll learn how you can protect your heart from men who don't even deserve your attention, let alone your love and devotion. I want you to understand what types of men play these games because this will help you identify them a lot sooner. Then I'll teach you some strategies to quickly test him and turn things around. If he doesn't respond well to those tests, at least you can be sure that he's playing with you and it's time to move on. I've been coaching women for many years now, and it frustrates me when I see how many men simply don't respect women. They play with their hearts, their feelings, and their future. Since I'm a man myself, I know why men do what they do. I'm here to help great women like you who keep walking into the traps of the same disrespectful men. Men who play games do it with every woman they meet. If you've ever encountered one, it wasn't personal; it's just the way they are built. They don't know any better. In my series of books, I try to uncover the truth about the man behind the game, so you'll know what's really going on in his mind. In this book, we'll focus on the type of men who play games with women. These men know how to touch a woman's hot buttons, how to make her happy, how to attract her into his trap. The problem is, because they're not genuine, your gut feeling will start to notice the

discrepancies, the little white lies, when his words don't align with his actions. That's when the emotional rollercoaster ride starts. Men who play games, and as you'll see it's not only the player type who does this, know how to hang a carrot on a stick in front of a woman. You might think this only happens to not-so-intelligent women. It doesn't. Some of my clients have very high positions in international companies, household names, lawyers, surgeons, and so on. Yet they too fall for his games and step into his traps. Some of these men are smart. They are master conmen, master manipulators. Not all of them have bad intentions, as you'll learn; some simply don't know any better. They don't have the emotional intelligence that's needed to reveal their true selves. You'll learn how to spot those men as well. Good luck!

## Customer Reviews

This is a very upfront, honest read. Some of the material may offend certain people, but that's only because they're in denial and do not understand the basic concepts of instincts and basic biology.

In any case, this read was actually a decent eye opener for me. I mean, it's not the holy grail of social science and psychology, it touches on the basics and it's written by a man, someone who knows the male psyche rather well. I went through a rough break-up. I did everything in here that he states pushes a man away. In the beginning, I was the fun, loving, carefree, independent, confident, non-jealous chick and as the relationship progressed and I found out what kind of man I was dating and I became too available, needy, way over emotional, and even afraid he would leave me. I was completely and utterly not myself. Yikes, where did the old me go?! When we first started dating, he was very clear to me that he did not want a relationship. First red flag. I was warned by other people about him, people who told me how much of a player he was. Second red flag. But he was charming, handsome, smooth, smart. He was a ladies man and women would hang on every word he said, including myself. He knew all of the right words and the challenge was exciting for me. It felt AWESOME that he chose me and all of the other girls were left pining for MY man. Third red flag. He was adventurous, always out, extremely spontaneous and carefree. He lived solely to enjoy himself and have fun. Another red flag! As time went on, there were inconsistencies that I began to notice. I would catch him in little white lies. I tried to tell myself they weren't that big of a deal. He would always tell me how much better he wanted to do for himself, but his actions were never consistent with his "goals". When we would argue, he would disappear and go MIA, I mean for weeks! That did a number on my self confidence when in all actuality I should have left that tool right there & then! He would never speak of the future with "us", only about him and what he was still working toward. Basically, if I read this book sooner I would have been better equipped and read the warning signs sooner. Don't think for one second this can't happen to you, I tried to be the girl who changed him, the one who was good enough and special enough and lucky enough to change his ways. Guess what, I wasn't, and it hurt like hell to fall in love with this man only to walk away broken hearted. This is a great read for anyone who is single and/or dating, anyone who feels as though maybe something is "wrong" in their current relationship and/or you're just at a crossroads and unsure. Nobody is perfect, I understand, but if you're not getting what you want out of a relationship, why stay? Read this for understanding, read this for shi\*ts and giggles and cuddle up under a blanket, read this for empowerment. If you constantly find yourself in the wrong relationships and you're tired of it... give this a read. Will definitely be reading more by this author. He has quite the sense of humor, too :)

This book really made me think about a lot of stuff. I think it's all true, I've been a beautiful distraction before and now at least I know it and I don't have to waste time thinking he's gonna change, he's

not - Move on. Thanks for this book.

Yes, if you are in the dating world, you need to read this book monthly to remind you what to do and what not to do.....seriously! We women can get lost in what men say and try to swoon you with. Talk is cheap.....repeat to yourself, talk is cheap! Do not get caught in this trap, if he's really interested, he will put the time and effort in. Don't you dare make excuses for his behavior, you're worth more so make him earn it. If you're not getting this, move on.....right away because you are being played, block him. That's why you need to read this book time and time again. Do not be any mans doormat.....those women are plentiful and a dime a dozen

This book is a good read and very insightful for women. Well worth the money and time to really absorb the information.

Women should read this. I'm glad I did.

Terrific book. Brian's advice is spot on!! A must read for anyone working on a relationship, anyone facing men "playing games", anyone looking for a respectful, loving and giving partnership or really any woman who deserve more! Loved this book!! Brian's insights are so helpful!!!!

This book helped my friend dump her "sweetheart " player boyfriend and land herself a really loving,caring gentleman.

I've read a couple of his books and found both of them to be very interesting. It's amazing how many of the things he said in the books are correct.
