Principles Of Tropical Horticulture (Modular Texts Series)

Synopsis

Principles of Tropical Horticulture leads the reader through a background of environmental influences and plant physiology to an understanding of production and post-harvest systems, environmental adaptation techniques and marketing strategies. Focusing on the principles behind production practices and their scientific basis, rather than detailed biological traits of each crop, this text outlines successes and failures in practices to date and sets out how the quantity and quality of horticultural produce can improve in the future. Case studies are frequently used and chapters cover the production of vegetables, fruit and ornamental crops, including temperate zone crops adapted to grow in the tropics.

Book Information

Series: Modular Texts Series

Paperback: 450 pages

Publisher: CABI; First edition (May 19, 2015)

Language: English

ISBN-10: 1845935152

ISBN-13: 978-1845935153

Product Dimensions: 1 x 7.2 x 9.5 inches

Shipping Weight: 2.7 pounds (View shipping rates and policies)

Average Customer Review: 3.0 out of 5 stars 1 customer review

Customer Reviews

David J. Midmore is Foundation Professor of Plant Sciences, CQUniversity, Australia and Visiting Professor, University of Reading, UK.

Title is misleading, it should be topics in tropical horticulture. Information is less organized and all over the place.
