Quran, Hadith, And Islam

Synopsis

One of the most important books on the topic, this ground-breaking work offers unique insight into the role of the Quran, and Hadith, in modern-day Islam. Hadith, a collection of sayings attributed to the prophet Muhammad, have long been accepted alongside the Quran, as integral to Islamic thought and practices. This book exposes the damage it has done. A must read for all students of Islam.

Book Information

Paperback: 100 pages

Publisher: Universal Unity (December 21, 2000)

Language: English

ISBN-10: 1881893049

Best Sellers Rank: #1,640,716 in Books (See Top 100 in Books) #88 in Books > Religion & Spirituality > Islam > Hadith

Customer Reviews

Very disappointed with the author's work on this. I found while reading this text that there are many areas where the author simply inserts their personal viewpoint on Qur'anic verses rather than relying on any rules of exegesis which are agreed. I realize many people may not be happy to read this review but its my honest opinion.

Very satisfied.

A+

I recommend every Muslim should read this book..

I was very satisfied with the seller. I recieved what I had wanted in excellent condition and sooner than I had expected.

This is the most useless book I have purchased. There is no logical flow in the book. There seems no connection between chapters.

The writer of this book is giving the world a wake-up call and challenging the so-called muslims to accept that the Quran is all we need for our salvation and as God Almighty says in the Quran [6:113-117] "This is to let the minds of those who do not believe in the Hereafter listen to such fabrications, and accept them, and thus expose their real convictions. Shall I seek other than God as a source of law, when He has revealed to you this book fully detailed? Those who recieved the scripture recognize that it has been revealed from your Lord, truthfully. You shall not harbor any doubt. The word of your Lord is complete, in truth and justice. Nothing shall abrogate His words. He is the Hearer, the Omniscient. If you obey the majority of people on earth, they will divert you from the path of God. They follow only conjecture; they only guess. Your Lord is fully aware of those who stray off His path, and He is fully aware of those who are guided." It is noteworthy to remention that God is the only source of law, and therefore, upholding any other source beside the Quran is a sign of disbelief.

This book made me aware of what I had suspected for a long time - that the great sophisticated faith of Islam has been horribly corrupted from within by a man-made disease known as 'the Hadith'. The logic behind what Rashad had said against the Hadith, using the true essence of Islam (i.e. the oneness of God - 'the Shahadah') made perfect sense. If reading those Hadiths by Bukhari & Co and the ridiculous and callous things they maim the Prophet Mohammed with, doesn't put you off in itself, then the idea of taking man-made sources of guidance as 'Gods religion' is being tantamount to 'Shirk' (an unforgivable sin) and will definitely put you off 'Hadith based' Islam - and thats a good thing! If you're wondering why Muslims have lost their 'Golden Age' and still have a stone-age mindset, then you are not alone. This book will start you off at the beginning of a long journey into seeking the truth of Islam. You'll learn to study the Quran more analytically afterwards which the Quran itself encourages and begin to investigate how practicing oral traditions corrupted Islam and in fact most mainstream religions.
