Law Of Attraction, New Edition: Hidden Secret To Success: Unleash Your Inner Greatness & Attract Success

Synopsis

Are you sick of not getting what you want? Are you sick of watching other people succeed and wonder when it's going to be your turn? Law of attraction is the one secret that has been around for centuries and the people who know about it, tend to succeed. This audiobook goes into the basics and how you can apply it in your own life to attract what you want. You need to first know exactly what you want in detail to be able to attract it into your life. I believe if we focus on what we want consistent, we can create our own destiny. I show you how celebrities like Jim Carrey and Oprah used their minds to manifest their dreams. This was the one secret to me attracting what I wanted for my life, and I want you to have that same gift. I show you how to believe in yourself because if you don't believe, no one will. Confidence comes from the inside, and so does belief.

Law of attraction has gives me the right foundation and principles to follow to achieve my dream health, wealth and relationship with women. I always knew the power of law of attraction but I was not sure which law to follow. this book has helped to follow the strategies in this book which will drive me to my goals to meet and achieve them. This is book you need if you cannot stop thinking about what you want in your life and what you are here to accomplish in this life. I recommend you to get this book if you want to become great at anything!

This is a good inspirational book. It stresses that we all should make use of the gift that we have and we can maximize our full potential if we believe in ourselves. Coupled with confidence, we will be

able to reach our dreams if we point our beliefs towards the direction of positivity and if we make the most out of the best versions of ourselves. I love how the author shares his personal insights on this matter and how these strategies helped him where he is right now. A must read for everyone!

This is an amazing guide book regarding to how to firm your belief and change your life by manifestation. I've been very interested in manifestation ever since teenagers. I find not only does the book well written but also full of valuable tips and secrets to control your state and gain confidence. What I love the most is the chapter " the morning ritual for confidence", which I will try to apply it to my life every morning after waking up.

Especially if you are lack of self-confidence, I highly recommend you to grab this book. Recently I lost my self-confidence due to some bad experiences so I got this book to recharge my self-esteem and I am pretty happy with this book. Now I believe in myself more than before and I am sure strong belief regarding myself is going to change my life in a good way. Give it a try and Being the best version of yourself.

Some helpful things in here.

I must not have the same book as the other reviewers. I can't get past the first few pages. All the sentences are run together with very little punctuation, bad sentence structure, bad grammar. There may be a good message here, but I'm so distracted by the bad, very bad editing and/or punctuation or lack thereof that I find it painful to try to read. I think I'll pass.

Manifesting goals is something I have always been interested in and a subject on which I spend a lot of time studying. This book was a great addition to my manifestation studies. The title of the book is "Belief," which is something the book teaches is the center of success in life. You have to believe you can succeed before you actually succeed. There are quite a few nuggets of info I took from this book, such as writing down my limiting beliefs, which is something I never thought about, and creating a morning ritual for manifesting confidence. If you are looking for a book to teach you some valuable lessons on the power of belief and how you can use it to change your path in life, this is the book.

This e-book is terrible. The author is just looking to make a buck off of idiots like me who

downloaded this in hopes of gleaning some new and useful information about self motivation and changing beliefs. Do not waste your money. Listen to Tony Robbins, Jim Rohn and other experts. There is also an awesome website called actualized.org, which covers the gamut of personal development. DO NOT fall prey to this useless e-book like I did! Namaste.
