Customer Reviews

I really like the way this writer lays out an orderly, sensible method for creating a business plan. Starting with identifying what you want to accomplish, then deciding on what methods you will use, then establishing a way to make sure you don't stray from your plan, the guesswork and uncertainty is minimized. I think every agent would benefit from reading this book. It took me about an hour to read it and it was an hour very well spent.

Very good read
