Warrior In Pink: A Story Of Cancer, Community, And The God Who Comforts

Synopsis

“I managed to make my way to the car through blurry, tear-filled vision. Inside the car I tried to calm down by looking out the window as cars drove by. Everyone was going somewhere. And I sat and watched. My life had suddenly come to a standstill.”

When young mother Vivian Mabuni was diagnosed with breast cancer three days before Christmas, she struggled to know how to respond. How do you tell your children you have cancer? How do you allow yourself to be vulnerable and ask for your family’s support? And how do you continue to trust God? Through her battle, cancer patients, family, and friends will find perspective, hope, and an honest look at what it is like to be diagnosed with and treated for cancer as well as encouragement to know that God is present in our pain.

Warrior in Pink: A Story of Cancer, Community, and a God Who Comforts provides an honest look at what it is like to be diagnosed with and treated for cancer. It includes ways to encourage yourself and others. It shows you how to invite God into your pain.

"When a woman is diagnosed with breast cancer, she is thrust into a foreign world. Most, like me, look for information that will help them navigate their new reality. **Warrior in Pink** is just the book I wish I'd been able to find. Vivian Mabuni writes with transparency, warmth, and depth, and I believe all who read her special insights will be blessed and encouraged." (Robin Lee Hatcher,

author of *A Promise Kept*) "Books about journeying through cancer are plentiful, but *Warrior in Pink* is different. Vivian Mabuni's honesty and faith are refreshing and uplifting. Highly recommended!" (Colleen Coble, author of *Rosemary Cottage* and the *Rock Harbor* series) "Whether you are a cancer sufferer, a survivor, or someone whose world has been devastated by the cancer of another, *Warrior in Pink* will convince you that you are not alone. Vivian Mabuni tells her story in honest and helpful detail, guiding us through her learnings and revealing her discoveries of God's provision within her pain. Here is a hopeful tale for all who have spent any time in the waiting room of cancer." (Elisa Morgan, speaker, author, and president emerita of MOPS International) "Warrior in Pink is a must read for anyone battling cancer, or those deeply connected to those who face that scary diagnosis. Real, raw, and chock-full of God's outrageous grace, Vivian Mabuni humanizes a difficult journey. Her story will inspire you." (Mary DeMuth, author of *The Wall Around Your Heart*) "This personal look at Vivian Mabuni's journey through cancer explores how God prepares us, takes care of us, and grows us through life's difficult moments and seasons. (Kay Yerkovich, author of *How We Love*) "Warrior in Pink is not just a book for those whose lives have been touched by cancer; it is an inspiring story that will encourage any and all readers to stand firm in faith through whatever struggles they are experiencing. Vivian Mabuni writes with grace, vulnerability, and an observant eye that recognizes God's presence each step of the way in her battle with cancer. And as we journey together with Vivian through her story, we are reminded anew of the importance of facing our challenges in community rather than in isolation. I highly recommend this book!" (Helen Lee, author of *The Missional Mom* and co-founder, Best Christian Workplaces Institute) "There is nothing quite like a cancer diagnosis to hurl a person into a deeper quest to understand and trust God. That happened to Vivian Mabuni. In *Warrior in Pink*, she invites us behind the scenes to enter that battle against breast cancer with her and to discover with her the power of friendship and the strength God gives His ezer-warriors, no matter what color they are wearing." (Carolyn Custis James, author of *Half the Church: Recapturing God's Global Vision for Women*, www.whitbyforum.com) "Vivian Mabuni's story is captivating and an essential read in that every one of us will be or already has been touched by cancer. Her strength, honesty, and hope give us the tools and tenacity we need to walk through cancer (as the friend, the family, or the patient). In the midst of pain and fear Vivian brings us to hope and thanksgiving and a deeper walk with the God she loves. I highly recommend this book to anyone wondering what comes next when life hands you a diagnosis you had not planned.

Vivian's "Words heal. Thank you, Vivian!" (Reverend Tracey Bianchi, pastor for worship and women, Christ Church of Oak Brook, IL, and author of Mom Connection and Green Mama)

Besides J. Todd Billing's wonderful book on the theology of lament in the midst of his cancer treatment, I don't traffic much in reading books on stories of people who have overcome cancer. So when I picked up Vivian Mabuni's book on her journey with cancer discovery and treatment I was excited to venture into her story. The read is simple yet profound. It took me a few days to read about her journey but it will probably take the rest of my life to unpack her insight. Skillfully Vivian takes us on her journey of the shock of cancer discovery, the extreme pain of treatment, and the hope of remission. It's not everyone's story but it's her's and she tells it well. Interspersed through the chapters are nuggets that point to good news that leads to shalom or rest in the midst of the struggle. Yet, there's a raw honesty that the journey through cancer treatment is filled with both valleys, emotional outbursts and disappointment. Yet, through it all was a hope that had the ability to strengthen her as a warrior. It shouldn't seem strange hopefully when I recommend that men read this book as well. Not only is it helpful to understand the extreme pain that any person who is treating cancer has to go through but particularly to understand the pain women have to endure. It is such a private and personal subject (and area) that it's good for men to understand in order to be more sympathetic. Men, take special note of the last few chapters and the spiritual lessons that Vivian offers as well as the appendix with words of encouragement from Darrin her husband. All in all, a wonderfully written book that is timely and insightful!

I have run from every book about cancer. The title caught me off guard because it gives the idea of strength. Strength and cancer just don't seem agreeable. Then I read the introduction. And within a few short paragraphs the author captures the reader Hook, Line, and Sinker. You can't put it down. This book is about everything your mind and body are telling you to run from and forcing you, the reader, to consider a different approach to your natural instinct of

flight and withdrawal. I so wish this had been written 8 years ago, and that I had read and applied it to my life. If you take Vivian Mabuni's approach to cancer, instead of the path of isolation, the chances are great you will make it through this battle. It transcends the boundaries of cancer and her idea of community can be applied where any of life's challenges might be thrown your way. Huge thank you to the author. I find this will be the perfect book to give to anyone who is facing a difficulty in life.

This book isn't for just those battling cancer. I love Vivian and the way she invites you into her story with such ease. It's almost as if she shared her story with me over dinner. It's such a honor to be invited into such an intimate story. She knows the power of her story and she shares it confidently knowing her purpose and knowing the impact it will have on people from all walks of life. I'm not battling cancer and have not been profoundly impacted by it. thankfully -- but still this story -- a story of cancer -- It was about so much more. I learned many new insights and nuggets of wisdom that have challenged me, walked me through healing, and sprung up so much HOPE!

I downloaded a sample out of curiosity, but quickly found the very unvarnished story, told at point-blank range, so compelling that I had to force myself to put it down so as not to read it all at once. The story of trusting God - in the darkest of times and revealing to us - and how He revealed Himself to Viv - is amazing. Just unequaled. Whether or not you're a cancer survivor (I'm not), you've got to be able to relate to the way Viv perseveres - even as everyday life events (the ones we take for granted) try and intrude. I found myself rooting (and praying) for Viv, Darin and their kids. Just wish that Darin would have received as much love (a simple I love him) and recognition as the "Awesome Threesome".

Though the gorgeous cover may imply this book is for women, this book is NOT just for women and NOT just for those battling breast cancer. YES ... it will certainly be a tremendous encouragement for women facing breast cancer but Vivian Mabuni's book will absolutely encourage men and women alike, whether or not you are personally fighting cancer. I love how she uses honesty and humor at the right times to help me feel like I was right there alongside her as she describes her cancer journey. As I read her story, my faith in God's goodness was deepened. I also loved her appendixes targeted towards spouses/friends who are caring for a cancer patient as well as her appendix addressing cancer patients with young kids. Both had very wise & practical advice. Highly recommend this book!

I purchased 5 books to give to those I know, or may later know, are diagnosed with breast cancer. I am personally always at a loss for words when I find out someone has cancer. I recently gave this book to an acquaintance who was saddened because her daughter was diagnosed with breast cancer, similar to the author's. She then confessed she also was being treated for breast cancer. Though her cancer was not as bad as her daughter's, she went through the same emotional roller coaster as the author did. She cried tears of happiness when she received the book. Reading it brought her to tears again. And yes, she is passing it along to her daughter. It is well written and easy to follow.
