This is an excellent and very detailed map. It covers Croatia and neighboring countries, including all of Bosnia-Herzegovina, nearly all of Slovenia, parts of Hungary and Serbia, and a tiny bit of Italy, where it touches Croatia and Slovenia. Although the map is large, it folds in such a way as to be easy to use while driving. As shown in 's description, the basic scale is 1:500,000, and the map is printed contiguously. There are also several sections (of greatest interest to most visitors) that are reprinted at a larger scale (numbers not specified). In addition, there is a booklet (glued into the cover) that includes a comprehensive town index and fifteen city maps. The city maps vary in detail. Some of them are detailed enough for a walking tour; others show the outlines of major streets in the town center and are very good at helping you get in and out of town, but you would probably want a map from a guidebook or tourist office to get walking-level details. I am currently using this map for planning a trip, and will update this review in a few months if I have additional observations after using it on the ground. One final note: 's current price (18.95 as of 1/29/2013) is the highest I have seen anywhere. Other sources (including Marketplace) can be quite a bit lower, so check around. I bought mine from Marketplace, and was disappointed to find that it was the 2007 version...not 2009 as advertised. Since highways are still under construction in these countries, it can be helpful to have the latest update as to what is completed and what is not yet usable.

Good map, but it needs updating at the end of toll way to Dubrovnik.

worked great on our roadtrip, good, easy to read detail.
