HIP HOP 2 HOMEOWNERS: How WE Build Wealth In America!

Synopsis

We, in pop culture, have made a habit of living for the moment; balling out today, and "living everyday like it's our last." I for one, can attest to that. The mentality comes from the corner, the block, and the lifestyle of the streets. When you are engaged in illegal activity, you live to make memories for the lonely days you will inevitably spend incarcerated.

Customer Reviews

I came across Jay's YouTube channel and was intrigued by his passion to help people develop their skill sets and change their lives. A young man that is on a quest to make a difference in the lives of those willing to listen and adhere to the information he shares. A great resource for anyone interested in pursuing a career in real estate.

Great buy! Has a lot of valuable research information about the real estate game, even if you are just starting out. Good book to get you started

Great read! Jay illustrates a fantastic journey from the throws of a would be career criminal who's spark of creative genius and resolve saw through the plights of most inner city youth. Jay illustrates to the reader vividly; his rise, fall and rebirth into the "millennial leader" that he is today. This is an amazing read regardless of age, race, or gender.JLew.

Great job. Its motivational to see you doing what your doing. I wish you continued success.

This book put everything in simple, basic terms! I would recommend this book to others who need information about how to start a career in real estate!
